

NEWLY IMPROVED MODEL!

Conforms to patient's unique shape

- **Securely stabilizes neck during extension**

- **Easier-to-use pump for faster inflation**

- **Strong, fully welded edges for complete disinfection**

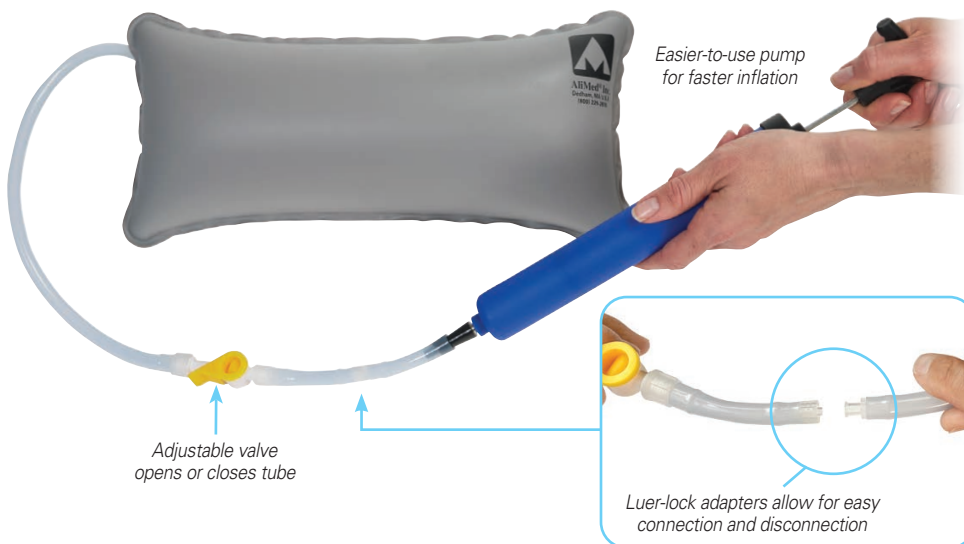

Adjustable Surgical Thyroid Positioner

Our newly improved Thyroid Positioner is designed for patients undergoing surgical procedures, which may require extension of the neck. Now with an easier-to-use pump, the positioner can be quickly inflated to securely support the neck and conform to the patient's unique shape. Fully welded edges allow for complete disinfection for better infection control and are strong enough to withstand a higher weight capacity for use with larger patients. Durable and reusable, reducing waste associated with disposable positioners. One size fits most.

Flat: 16½"W x 8"L • Inflated: 14½"W x 4½"L x 5"H (max height) • Fluid-resistant • Not made with natural rubber latex

Ordering Information

#937119 Positioner, Surgical Thyroid

Why AliMed?

Customer-First Service

- ▶ **Friendly, personal, experienced**
We're ready to assist you with product questions, suggestions, or special requests.
