# AliStrap® and AliStrap® Soft

## The most versatile back- to-back hook-and-loop

With **strong** back-to-back hook-and-loop closures, **soft** non-abrasive edges, and infinite **versatility**, our best-selling AliStrap and AliStrap Soft are must-have staples for any facility. Whether you need a reliable everyday strap that secures just about anything or one tailored for more fragile, gentler positioning jobs, **there's always an AliStrap for that.**

### Security with flexibility

Back-to-back hook-and-loop with flexible, yielding edges stabilizes patients comfortably yet is strong enough to secure heavy equipment

### Security with sensitivity

Low-profile, medical-grade hook and padded, skin-safe loop offer extra protection against at-risk skin without sacrificing patient security

### AliStrap Soft for fragile skin

- ✓ The softest hook-and-loop strap available
- ✓ Fully padded, skin-safe edges for extra protection
- ✓ For your most sensitive clinical applications, from pediatric to geriatric

### AliStrap for any use

- ✓ Your go-to, multipurpose positioning strap
- ✓ Strong and secure without the sticky residue
- ✓ For patient immobilization, cord management, or equipment security

# AliStrap® Precut Positioning Straps

## Save O.R. and Imaging prep time

■ No cutting or measuring required

■ Individually wrapped and ready to use

■ Skin-safe, soft edges, strong closure

No cutting, no measuring, no hassles! Our best-selling **AliStrap** and fully padded **AliStrap Soft** for fragile skin are available in convenient precut lengths for Imaging and Surgery—save valuable prep time searching for scissors or measuring tape while minimizing disruption to your sterile environment.

Straps are individually wrapped for greater infection control and ready to use right out of the box. Quickly and easily secure arms to armboards, IV lines and catheters or hot/cold therapy devices to extremities, or even accessories to your O.R. table.
