

### Cool Pack Panel and Cool Pack Inserts

A new custom apron option for any AliMed apron. With this option a mesh panel is sewn into your new apron, allowing you to insert a Cool Pack. Cool Packs are ready to use after only one hour in a refrigerator and keeps you cool for up to three hours of continuous use. Perfect for surgeons, surgical nurses, anesthesiologists, and anesthesiologists who wear radiation protection aprons under sterile garments for extended periods of time. Cool Pack Panel is sewn into the front for most apron styles, or sewn into the back for Coat and Vest apron styles. Includes two latex-free, skin-safe Cool Packs. Additional Cool Packs available below. (Cannot be frozen.)

Panel and Two Cool Packs          \$135.00 ea  
 Panel only                                  45.00 ea

**No item # needed.** Must be ordered using Custom/Perfect Fit/Fashion Fabric Apron.
